

Einschleifung ohne Verknüpfung für die Kombination Bergvariante + Ausbaustrecke Kirnstein - Rosenheim

A diagram illustrating a 90-degree angle. It features a vertical line segment on the left and a horizontal line segment on the right, which meet at a single vertex in the center. The angle is shaded in gray. To the right of the angle, the text "90°" is written in a large, bold, black font.

Anlage 8

Niederaudorf

Technical drawing illustrating the planned railway line from Rosenheim to Schafenau, showing the existing track (dotted line), the new track (red line), and the new line (red line). The drawing also depicts a noise barrier (yellow dashed line), a retaining wall (grey line), a cut-and-cover structure (green and brown trapezoid), and a turnout (blue line with radius W760). Height information is provided for the new line (458 and 465 meters above Normalnull).

Brenner-Nordzulauf Neue Bergvariante Fischbach - Kufstein, Nördlicher Abschnitt Wildbarren - Kirnstein

Bearbeitungsstand:

11.8.2022 30.1.2024 20.6.2024

Kartengrundlage: Amtliche topographische Luftbilder
www.bayernatlas.de, Amtliche Flurkarten,
Amtliche Höhenlinien

Maßstab 1:2.000

A black and white graphic. On the left, there is a white triangle pointing upwards. On the right, the letters 'V', 'R', and 'G' are stacked vertically in a large, bold, serif font.
